Management Development Programme on

Advanced Data Analytics for Managerial Decision-Making

About BSSS IAS

The BSSS Institute of Advanced Studies (BSSS IAS), an AICTE approved institution promoted by The Bhopal School of Social Sciences, having more than five decades of existence with educational excellence. The BSSS IAS is engaged in education, research, training, and consultancy activities in the areas of management, sustainable development, rural development, social sciences, etc. It is one of the best Professional Management Institutions engaged in multidisciplinary activities and has collaborated with Assumption University, Thailand, and Synergy University, Russia, for joint research, training, and management education. The Institute envisions emerging as a top Professional Management Institution in Central India by playing a pivotal role in professional management education and training in coming years and adorning a path with an undivided focus on quality education and excellence, thereby placing itself as an institution of national and international importance.

It envisages to meet the demand for the trained human resource with managerial & analytical skills in the areas of business management, and development management through regular

educational courses and to update the knowledge and managerial skills of the serving professionals in the above areas through short-term Management Development Programmes.

Rationale of the Program

Technical competencies are of utmost importance for organization in the new normal to deal with market uncertainties and abnormalities. With the growing markets for technically sound work-force it is necessary to update and upgrade one's competencies and skills to match the dynamic field of IT and AI. The MDP on "Advanced Data Analytics for Managerial Decision-Making" is proposed with the aim to assist the new age learners to develop analytical skills in the application of advanced excel in decision-making and strategic planning to boost the organizational efficiencies. This capsule programme shall include the exposure to various applications of excel plug-ins and data analysis add-ons to support managers at all levels, to facilitate flawless organizational operations. The programme intends to provide the platform to reset the technical skills and drive the new age work-force towards excellence.
